

(Price-sorted List Version)

This Journey Into Nyx cheatsheet from **QuietSpeculation.com** is all you need to make sure that all of your trades at this weekend's Prereleases are profitable. All information has been gathered through QS' Trader Tools program, located at the convenient mtg.gg short-link. The program scans the mid-level TCGPlayer prices and displays what hundreds of stores are actually selling these for. You can use Trader Tools and your phone to quickly look up the price of any cards you are trading for at the Prerelease. Anything not listed is under a dollar.

As of 4/25/14, you could buy the entire set for \$205.34 and sell it to buylists for \$95.66, a gross spread of 47%. If you like talking numbers this way, check out QS – we're full of that kind of thing.
