

This Fate Reforged cheatsheet from **QuietSpeculation.com** is all you need to make sure that all of your trades at this weekend's Prereleases are profitable. All information has been gathered through QS' Trader Tools program, located at the convenient

[mtg.gg](http://mtg.gg) short-link. The program scans the mid-level TCGPlayer prices and displays what hundreds of stores are actually selling these for. You can use Trader Tools and your phone to quickly look up the price of any cards you are trading for at the Prerelease. Anything not listed here is \$1.00 or less.

***Printing this out? Run off extra copies for your friends in the store and be a hero.***

As of 1/15/15, you could buy the entire set for \$198.40 and sell it to buylists for \$58.67, a gross spread of 69.1%. The "spread" is the buylist price divided by the selling price – a lower spread is better because it means dealers will pay more for it. If you like talking numbers this way, check out QS – we're full of that kind of thing.
