

This Eldritch Moon cheatsheet from **QuietSpeculation.com** is all you need to make sure that all of your trades at this weekend's events are profitable. All information has been gathered through QS' Trader Tools program, located at the convenient [mtg.gg](https://mtg.gg) short-link. These are actual market prices that show what people are already paying. You can use Trader Tools and your phone to quickly look up the price of any cards you are trading for at the Prerelease. Anything not listed here is \$1.00 or less. We didn't list foils because they're too thinly sold right now to get an accurate price.
